

Back when Nexton was just a twinkle in our eyes, we decided to make this place the very first gigabit community in South Carolina. And we had a choice to make: bring in one of the big national internet/cable providers or work with a local company. Before long, it became clear that SC's very own Home Telecom was by far the best choice. From the beginning, Home Telecom has been not just a provider, but a true partner, offering ultra-fast gigabit speeds and ultra-wonderful customer support. And now that Home Telecom has an office right here in Nexton, it is truly your neighborhood tech buddy. SC's best community just keeps getting better.

CO-WORKING TO THE RESCUE

With gigabit internet available to every home in Nexton, there's no better place to work from home. Then again, home isn't always the most productivity-enhancing work environment. So like the cavalry coming over the hill, Concept Co-Working has brought its flexible turnkey office solution to Nexton. Whether you just need a private desk, a private office or space for up to 10 employees, Concept gives you everything you need: furnishings, reception service, meeting rooms, internet, coffee service, and so much more. Like quiet. Lots and lots of quiet.

PARK TECH

That's right. With Nexton's community WiFi technology is your companion even if you're sitting on a picnic blanket in Brown Family Park or relaxing in Encore Park. Just don't forget to pack the sunblock along with your laptop.
